Free and Open-Source Software Licenses

The licensed software, sub-licensed software and Softek's delivery of maintenance may utilize one or more free or open-source components licensed under one or more third-party licenses, as updated from time to time (each, a "Free License"). Any use of the open-source components by Client shall be governed by, and subject to, the terms and conditions of the applicable Free License(s) and its end-user terms. On written request, Softek may provide Client with a complete machine-readable copy of the source code for free or opensource components, solely to the extent required by the terms of the Free License(s). For components subject to Free Licenses that are sub-licensed by Softek to Client, Softek grants Client rights in such components solely to the extent permitted under the Free License(s). Client agrees that the rights granted within the Free License(s) apply solely to the applicable components and in no way extend to Softek's solutions, methods, code, services, works or other proprietary, confidential or other intellectual property. Client may not use any open-source component in conjunction with Softek's products, systems or sublicensed systems, except as expressly permitted by Softek.
